How do i do this? Also, what I want to do is download the Pdf file, and I don't have a wifi connection and this is a problem. A: If you use Browsers like Chrome, Mozilla or Opera, you just need to rightclick and save the file on the location where you want to save the file (it will open the Save As dialog), and you will be able to save the file. If you use Firefox, rightclick and hit "Save" which will open the default Firefox location on your PC. If you use Internet Explorer, you will need to open your default browser (default browser is the browser which you open when you open a web page) and rightclick and save the file. If you are using Safari, you have to follow the similar process. If your PC is not connected to the internet, you can download an offline reader for the PDF file or open a PDF document from your local repository (local repository is a place where you can store files (like a flashdrive) that you can access from other places where your PC isn't connected to the internet) Contact Us Now We use cookies to enhance your experience on our website. Niche pricing can be used to preserve/protect a company's image or brand from aggressive pricing used by competitors. Pricing at a niche level is a means of addressing issues such as product quality, brand differentiation, and overall image (Attention 2005). Niche pricing is differentiated to a company's customers. It may refer to products for which customers have a higher demand than that of competing products. History In 1982, Dikran Kejikian, a 3da54e8ca3
